Treasures from our Tradition

At the time of the Reformation, although England broke away from papal authority under Henry VIII, a silent majority clung to the Catholic faith. Henry's eldest daughter, Mary, restored the "old religion" in a fierce persecution of Protestants (she is called "Bloody Mary" for good reason.) His youngest daughter, Elizabeth, rejected papal ties. Under her reign, beginning with legislation in 1593, Catholics were persecuted again, and only the very wealthy could afford the fines for not attending Anglican services on Sunday. They were called "recusants," from a Latin word meaning "refuse," since they refused to attend the liturgy of the Church of England. Many families maintained Catholic tradition in secret, and today their descendants claim "Recusancy" as a mark of family pride. For generations they sent their young people abroad to be educated in convents and monasteries. It is not surprising that the first monastery in colonial America springs from Holland with the daughters of patrician English recusant families. Port Tobacco, Maryland, proved fruitful soil for the Carmelite tradition. —Rev. James Field, Copyright © J. S. Paluch Co.
